## SEVERE FIGHTING BREAKS OUT IN CHINA

### CIVIL WAR IN EFFECT IN TWO RIVER PROVINCES

KIANG SU ARRAYED AGAINST  
CHE KIANG DIS-  
TRICT

FACTIONS USE THE RAILWAY AS  
A BATTLE  
LINE

(By United Press)  
Peking, Aug. 27.—Severe fighting has broken out in the district between Kiang Su and Che Kiang provinces south of the Yangtse River, according to advices here today and railroad traffic has been suspended. Thomas Cook of the American Express Company said his office had not been advised of the disordered conditions but that the cause was not apparent. The Shanghai Nanking railroad is not operating, he said. It was also announced that the Blue Express from Peking to Nanking is not carrying passengers from Shanghai until the trouble is over.

London, Aug. 27.—Opposing Chinese armies are facing one another across the railroad 17 miles from Shanghai, near Huang-Doo, according to a Central News Dispatch from Shanghai today.

### CHICAGO BURGLAR GANG IN TOILS

CLAIMED THEY CAME TO MILL  
CITY TO MAKE A  
"CLEANUP"

(By United Press)  
Minneapolis, Aug. 27.—Four men and two women who police declare are members of a Chicago burglar gang who came to the Twin Cities with the intention of making a "cleanup" are being held in jail here. The gang is believed to have arrived here last week. Only one burglary so far has been charged to them. That one was the robbery of the A. A. Amold decorating establishment here when \$4,000 worth of curtains and draperies were taken Sunday.

The furnishings were recovered an hour later when two of the alleged robbers were arrested with the goods in their possession. Today William Allen and Edward Haller are held for the grand jury on a grand larceny charge.

The names of the other two men and two women are being withheld.

### REPUBLICAN HEADQUARTERS ENCOURAGED

FEEL ELATED OVER THE SITU-  
ATION IN NORTH DA-  
KOTA

CLAIM PRESIDENT COOLIDGE  
WILL CARRY THE  
STATE

(By United Press)  
Chicago, Aug. 27.—Republican headquarters here have been "greatly encouraged" concerning the situation in North Dakota, it was announced in a formal statement today.

George M. Young, congressman from the second North Dakota district, spread the "encouraging word." "President Coolidge will carry North Dakota," Young said. "I have been in close touch with a number of well-informed people throughout the state and their information can be relied upon completely.

"Many who have heretofore supported LaFollette have assured me that they are for Coolidge. North Dakota is at heart a republican state. They have the habit. The votes of those Nonpartisans who accept Coolidge as the man for president, added to those Nonpartisans who in national matters are republican will be sufficient to insure victory for Coolidge."

### REICHSTAG IN UPROAR; BLOODY SCENE IN DEBATE

(By United Press)  
Berlin, Aug. 27.—The Reichstag was thrown into an uproar this afternoon and the first bloodshed of the season occurred during the debate over the so-called Dawes laws, which will make the London agreement effective.

The fighting broke out when a motion by the fascist deputies for general amnesty followed a communist proposal to allow imprisoned deputies to vote on the Dawes laws.

There was general fighting for several minutes. One deputy was knocked down and trampled on and carried bleeding from the parliament hall.

### PRES. EBERT MAY DISSOLVE REICHSTAG

Berlin, Aug. 27.—President Ebert today signed a decree providing for dissolution of the Reichstag in case it refuses to ratify the pact of London, making the Dawes-Young settlement of the reparations problem effective.

A new election would follow this action.

### POLICE FORCIBLY EJECT 3 COMMUNISTS

Berlin, Aug. 27.—Disorders broke out anew at the evening session of the Reichstag and for the first time in the history of the German parliament police were called and forcibly ejected three recalcitrant communists.

### TWO CHICAGO BOYS IN TEENS CONFESS MURDER

BOYS AGED 16 AND 19, SAID THEY  
KILLED MRS. BESSIE JAE-  
NSTEN, AGE 40

TWO YOUNG GIRLS, BOYS SAID,  
AIDED THEM IN THE  
CRIME

(By United Press)  
Chicago, Aug. 27.—One of Chicago's mystery murders was solved today by the confessions of two boys still in their teens.

William Lydon, 16 and Anthony Valinas, 19, admitted they killed Mrs. Bessie Jaensten, 40, in her apartment during a robbery police said.

Two young girls, the boys said, helped them in their crime. Mrs. Jaensten, wealthy divorcee, was killed April 17. Several arrests were made but all suspects were released. The killing went officially on record as one of the unsolved murders.

But yesterday Evelyn Novak, inmate of a girls' institution, told a story to police in which she said Lucille Marshall and Anna Valinas, two former inmates of the same institution, admitted they had helped kill Mrs. Jaensten. The two girls said they helped the two boys, who did the actual killing. Young Lydon and Anthony Valinas, a brother of Anna, were taken into custody. After long grilling they admitted the crime.

According to the boys confessions the two girls knew Mrs. Jaensten slightly. They learned that she had a large sum of money in the apartment and they plotted the robbery with Lydon and Valinas. The girls entered the apartment and let the boys in. When the woman screamed for help she was choked to death.

The amount of the loot is still undetermined.

### Many Rescuers

Liverpool, Aug. 27.—After hiking all the way from London to catch a boat for America, Arthur Hamilton couldn't stop when he reached the wharf at Liverpool. The boat had just left and Hamilton, running toward it, fell off the pier into the water. Twenty or 30 persons jumped in to rescue him.

### ANOTHER MASTER MIND CHARGED AS GONE ASTRAY

REFERS TO W. W. FAHY, BEST P.  
O. INSPECTOR IN THE  
BUSINESS

CHARGED WITH BEING "BRAINS"  
OF \$2,000,000 MAIL ROB-  
BERY

(By United Press)  
Chicago, Aug. 27.—W. W. Fahy, known as "the best postoffice inspector in the business," the sleuth who solved the Dearborn station robbery three years ago and put "Big Tim" Murphy behind the bars, is in jail today charged with being the brains of the \$2,000,000 mail train holdup at Rondout, Ill., June 12.

Fahy's arrest was brought about by the personal investigation of A. C. Germer, chief postal inspector of the Chicago area. He had been shadowed since a few days after the Rondout robbery, Germer said. The prisoner was taken to Kane county jail adjoining Chicago after bonds were fixed at \$5,000.

C. H. Clarahan, chief postoffice inspector of Chicago; J. B. Leman of Baltimore; N. B. Miller of Washington; Thomas Milligan of Toledo; E. E. Neely of Syracuse; J. W. Hartwell of Albany and C. C. Battles of New York aided Germer in the investigation of Fahy. These inspectors, postal officials said, have records for running down robbers which are overshadowed by those of one man—Bill Fahy.

"Everything will come out in the wash," Fahy said as he was taken into custody. "I suppose they have something on me because I have been in communication with Jimmy Murphy." (Murphy is a notorious underworld character in Chicago.)

Fahy indicated Murphy was an old friend of his and has been of assistance in getting information on criminal operations of Murphy's enemies.

The Rondout robbery was one of the most spectacular and at the same time one of the most carefully planned holdups on record. Ten men participated, each being assigned to a certain place.

Willie Newton, one of the robbers, was shot down by Sam Grant, alleged leader of the band, because he was in the wrong place and Grant mistook him for a postal guard.

The robbery was perpetrated just before the train reached a lonely place just north of Chicago.

The same band that staged the Rondout robbery is suspected of other smaller holdups through the middle west, including those at Toledo, St. Louis, East Chicago, Ind., and Harvey, Ill.

### FAHY DENIES BEING INVOLVED IN HOLDUP

Chicago, Aug. 27.—Postoffice Inspector William Fahy, held in connection with the \$2,000,000 Rondout, Ill., mail train robbery, confessed to Postal Inspector Charles H. Clarahan today that he tipped off Jimmy Murphy, alleged fence, concerning the activities of the secret service men in their investigation of the robbery. Fahy said, according to the officials, that he received inside information that secret service men were going to attempt to purchase bonds from Murphy and inasmuch as he was working on the case himself he was seeking individual honors.

He denied emphatically that he was involved in the actual holdup and characterized his arrest as a frameup.

Postal Inspector Clarahan declared, however, that evidence pointed clearly to Fahy's implication in the robbery and that he would go before the federal grand jury within a few days to ask an indictment. No other postal inspectors are involved, he said.

Secret service men are tracing a secret bank account which Fahy is reported to maintain.

### PARIS SENATE RATIFIES THE LAUSANNE TREATY

(By United Press)  
Paris, Aug. 27.—The senate today ratified the treaty of Lausanne, settling the situation in the Near East which followed Turkey's victory in the recent Turco-Greek war.

### GEORGE J. SILK, HOPKINS EDITOR, DIED SUDDENLY

PUBLISHER STRICKEN BY HEART  
ATTACK ON VACATION AT  
TWO HARBORS

FUNERAL SERVICES TO BE HELD  
FRIDAY AFTERNOON AT  
HOPKINS

George J. Silk was well known in Brainerd. In early days he published a weekly paper at Pine River, where his wife has many relatives.

The Minneapolis Tribune states that George J. Silk, publisher of the Hennepin County Enterprise at Hopkins, and formerly secretary of the Hennepin County Fair association, died suddenly Tuesday while on a vacation near Two Harbors, according to word received by relatives on Tuesday.

Mr. Silk, accompanied by Harry Koeppen, a country newspaper publisher, left Hopkins Saturday for a fishing trip near Two Harbors. They had planned to walk seven miles to the lake where they were to fish. No details of the death, other than that Mr. Silk died after a heart attack, were received by the family. The body is expected to arrive in Hopkins today and funeral services will be held at 2 p. m. Friday at the Masonic Temple at Hopkins. He was a member of the Odd Fellows.

Mr. Silk was born March 20, 1878, at Farmington, Minn. In addition to publishing the Hennepin County Enterprise he conducted a job printing business at Hopkins. He was a Scottish Rite Mason and a member of Zuhrah temple.

He is survived by his wife, two brothers, Edward Silk of Farmington and Louis Silk of Elbow Lake; and three sisters, Mrs. E. Hensen of Kansas City; Mrs. Elizabeth Jones of Farmington and Mrs. W. Cowell of Farmington.

### DAVIS TO MAKE APPEAL TO DIRT FARMERS AND LABOR

TO MAKE ANOTHER ASSAULT ON  
REPUBLICAN ADMINISTRA-  
TION

PREPARES FOR HIS LABOR DAY  
DAY SPEECH AND INVASION  
OF CORN BELT

(By United Press)  
New York, Aug. 27.—John W. Davis, democratic standard-bearer, will make his appeal to labor and dirt farmers after delivering another assault on the republican administration and its policies at Columbus. Davis returned to New York today, to prepare for his Labor Day speech and his first invasion of the corn belt.

In his labor day speech at Wheeling, W. Va., Davis will elaborate his views regarding the rights of labor and stress his opposition to the use of the injunction in labor disputes. His managers believe because of this view the opposition of many labor groups will disappear and a large share of the normal democratic labor vote will remain instead of going to LaFollette.

### PRESIDENT NAMES NEW AMBASSADORS, JAPAN AND MEXICO

EDGAR BANCROFT, CHICAGO, EN-  
VOY TO FLOWERY  
KINGDOM

JAMES R. SHEFFIELD, NEW YORK  
TO COURT OF MEX-  
ICO

(By United Press)  
Plymouth, Vt., Aug. 27.—Edgar Bancroft of Chicago and James Rockwell Sheffield of New York have been appointed by President Coolidge as ambassadors to Japan and Mexico respectively.

The appointments were announced last night by the president after both had been unofficially reported for several days.

The Japanese post, because of the delicate nature of the regulations now existing between the United States and Japan, had required particularly close scrutiny of the available men.

Bancroft has long ranked among the most prominent lawyers of Chicago. He was born in Galesburg, Ill., and graduated from Knox College in 1878 and from Columbia Law School in 1880.

Sheffield also is one of America's most distinguished lawyers and has been prominent in republican politics since 1889.

### LITTLE FALLS MORNING FIRE

ANDERSON HARDWARE COMPANY  
BLAZE CHECKED BY QUICK  
WORK OF DEPARTMENT

(By United Press)  
Little Falls, Minn., Aug. 27.—Fire which was discovered at 2:30 o'clock this morning in the basement of the store formerly owned by the Anderson Hardware company was checked before serious damage was done by the quick work of the fire department.

The Anderson Hardware company recently went into bankruptcy and the stock was being sold. Occupants of flats over the store heard an explosion below and the alarm was given. The amount of damage caused by the blaze has not been determined.

A deputy state fire marshal is here today making an investigation.

### GIANT ZEPPELIN BUILT FOR U. S. IN TRIAL TRIP

(By United Press)  
Friedrichshafen, Germany, Aug. 27.—The ZR-3, giant Zeppelin, built for the United States in payment of reparations debts, went aloft on a trial trip today. After a series of trips the dirigible will be made ready for the trans-Atlantic flight for delivery to the United States, probably in October.

### Trial Trip Successful

Friedrichshafen, Germany, Aug. 27.—The ZR-3, America's new giant Zeppelin, built by Germany as payment upon America's reparations claim, successfully completed its first trial flight here this afternoon. Late in the evening the dirigible was sent up for a three-hour spin and officials expressed themselves as pleased with the performance.

### MARTIN OF THE DEMOCRATS TO CONTEST BORAH

(By United Press)  
Twin Falls, Idaho, Aug. 27.—Frank Martin, Boise, was nominated unanimously for United States senator against Senator W. E. Borah at the Democratic state convention today. A. G. Frehafer was nominated for governor.

### GUNMAN TRIED TO KIDNAP THREE CHICAGO POLICE

(By United Press)  
Chicago, Aug. 27.—John Phillips, Chicago gunman and gangster, was shot and killed early today when he attempted to kidnap three uniformed police officers.

Phillips with several companions entered a north shore cabaret shortly after midnight and abused several patrons. When the proprietor complained to police three officers were sent to quiet the group. As the policemen walked around a table Phillips covered them with his revolver and ordered them to back their way to the street. The officers were about to enter an automobile, hands still uplifted, when police reinforcements arrived.

### ATTACKS MENTAL DISEASE DEFENSE, LEOPOLD-LOEB CASE

STATE'S ATTORNEY CROWE  
CHARGES WHOLE ARGUMENT  
WAS FICTION

CONCENTRATES FIRE ON DR.  
WILLIAM A. WHITE, PSYCHI-  
ATRIST

(By United Press)  
Criminal Courtroom, Chicago, Aug. 27.—The "mental disease" defense of the Leopold-Loeb hearing is a fiction advanced to save Nathan Leopold and Richard Loeb from the gallows, State's Attorney Robert E. Crowe charged today in the second phase of his argument.

Crowe concentrated his fire on Dr. William A. White, psychiatrist of Washington, one of the leading alienists for the defense.

"If these boys are suffering from a mental disease why didn't they give it a name?" Crowe asked. "I am surprised at Dr. White for not giving the disease a name, for he has in the past given names for diseases that do not exist."

Crowe said, "The mental disease would disappear very rapidly if the cause of its existence were removed."

"If the state had not fastened the crime on these boys, Leopold would be enjoying himself in the gay capitals of Europe on the \$5,000 he would have wrung from Jacob Franks and indulging in his unnatural lust," Crowe cried.

Crowe attacked the honesty of the entire defense. Witnesses were placed on the stand to testify to fainting spells by Loeb so that the alienists would have a basis upon which to build their defense of mental disease, Crowe said.

### FIFTEEN MEN IN PERIL ON THE ALASKAN COAST

MAROONED IN ICE FLOES, WAR  
DEPARTMENT IN-  
FORMED

RADIO APPEAL FOR HELP FROM  
THE STRANDED  
SHIP

(By United Press)  
Washington, Aug. 27.—Fifteen men have been marooned for weeks in the ice floes off north Alaska, according to word received by the war department. A radio appeal for help for the stranded ship was relayed to all ships in the north Pacific.

A strenuous effort will be made to rescue the men. The ice-locked vessel is the Lady Kindersley and her present position is 47 miles east of Point Barrow.

### CONCEDED TO BE BIGGEST DAY AT FAIR

ATHLETIC PROGRAM INCLUDES  
BALL GAME, BRAINERD ELKS  
AND PEQUOT

HON. HAROLD KNUTSON SPEAKS  
IN MORNING, HON. THOMAS  
SCHALL IN EVENING

Directors of the Crow Wing county fair are making special preparations to entertain Brainerd visitors on Thursday, "Brainerd Day," conceded to be the biggest day of the fair.

The program on Thursday has been extended to include a baseball game, when the Brainerd Elks team will cross bats with the Pequot nine. Both have a good record this season, and are evenly matched, so that the game promises to be a fast one and a hard fought battle.

Horseshoe tournaments are scheduled for Thursday, with L. O. Kelsen, former Brainerd man, and an authority on the game, in charge. Local pitchers are taking a keen interest in this tournament and promise to put up a hard fight against all comers.

### Speakers on "Brainerd Day"

The speakers for Brainerd Day include Hon. Harold Knutson in the afternoon and Hon. Thomas Schall in the evening. The Brainerd Boys' Band will furnish music and there will be four big feature acts of vaudeville in addition to the exhibition of auto pushball.

The evening fair was inaugurated last season, and was so very successful that it is to be repeated this year on a much larger scale. It offers those who could not attend in the afternoon an opportunity to visit the fair and listen to a good program. There will be two and one-half hours of solid entertainment on Thursday evening, more than has ever been attempted before. Much better lighting facilities have been arranged this year than were afforded last season, the only complaint that was registered about the 1923 evening fair.

Brainerd is asked to make a special effort to turn out in force on Thursday, and so make Brainerd Day the success that it has been in the past.

### Flower Exhibit at County Fair

L. P. Hall, president of the Crow Wing County Garden Flower society will go to Pequot Thursday morning to further the interests of the society. He will take flowers with him and make a display.

He would appreciate having any unusually pretty flowers from Brainerd growers and will take any that are left for him at the H. F. Michael store before 9 o'clock Thursday morning.

This will be an opportunity for Brainerd people to further the better flower gospel.

### 2,500 Entries To Date

In a telephone call to the Dispatch at noon today, D. D. Schrader stated that there were already 2,500 entries on the first half of the entry day. Mr. Schrader stated that undoubtedly this year's fair would be the largest and best that has ever been staged. More entries and a larger variety of exhibits will greet fair visitors this year, in addition to the excellent entertainment that has been provided.

### Thief Gets Car While Owner Is Watching Him

St. Paul, Aug. 27.—An auto thief, who worked disregarding the fact that the owner of the car was watching him, last night stole a car in front of the Miller hospital.

The owner, James Shourt, 801 Marshall ave., looked out of a window in the hospital just in time to see his machine ramble away. Now police have been asked to aid in finding Hupmobile sport model, 52-336-B

WORK OF DEPARTMENT**

(By United Press)  
Little Falls, Minn., Aug. 27.—Fire which was discovered at 2:30 o'clock this morning in the basement of the store formerly owned by the Anderson Hardware company was checked before serious damage was done by the quick work of the fire department.

The Anderson Hardware company recently went into bankruptcy and the stock was being sold. Occupants of flats over the store heard an explosion below and the alarm was given. The amount of damage caused by the blaze has not been determined.

A deputy state fire marshal is here today making an investigation.

### GIANT ZEPPELIN BUILT FOR U. S. IN TRIAL TRIP

(By United Press)  
Friedrichshafen, Germany, Aug. 27.—The ZR-3, giant Zeppelin, built for the United States in payment of reparations debts, went aloft on a trial trip today. After a series of trips the dirigible will be made ready for the trans-Atlantic flight for delivery to the United States, probably in October.

### Trial Trip Successful

Friedrichshafen, Germany, Aug. 27.—The ZR-3, America's new giant Zeppelin, built by Germany as payment upon America's reparations claim, successfully completed its first trial flight here this afternoon. Late in the evening the dirigible was sent up for a three-hour spin and officials expressed themselves as pleased with the performance.

### MARTIN OF THE DEMOCRATS TO CONTEST BORAH

(By United Press)  
Twin Falls, Idaho, Aug. 27.—Frank Martin, Boise, was nominated unanimously for United States senator against Senator W. E. Borah at the Democratic state convention today. A. G. Frehafer was nominated for governor.

### GUNMAN TRIED TO KIDNAP THREE CHICAGO POLICE

(By United Press)  
Chicago, Aug. 27.—John Phillips, Chicago gunman and gangster, was shot and killed early today when he attempted to kidnap three uniformed police officers.

Phillips with several companions entered a north shore cabaret shortly after midnight and abused several patrons. When the proprietor complained to police three officers were sent to quiet the group. As the policemen walked around a table Phillips covered them with his revolver and ordered them to back their way to the street. The officers were about to enter an automobile, hands still uplifted, when police reinforcements arrived.

### ATTACKS MENTAL DISEASE DEFENSE, LEOPOLD-LOEB CASE

**STATE'S ATTORNEY CROWE  
CHARGES WHOLE ARGUMENT  
WAS FICTION**

**CONCENTRATES FIRE ON DR.  
WILLIAM A. WHITE, PSYCHI-  
ATRIST**

(By United Press)  
Criminal Courtroom, Chicago, Aug. 27.—The "mental disease" defense of the Leopold-Loeb hearing is a fiction advanced to save Nathan Leopold and Richard Loeb from the gallows, State's Attorney Robert E. Crowe charged today in the second phase of his argument.

Crowe concentrated his fire on Dr. William A. White, psychiatrist of Washington, one of the leading alienists for the defense.

"If these boys are suffering from a mental disease why didn't they give it a name?" Crowe asked. "I am surprised at Dr. White for not giving the disease a name, for he has in the past given names for diseases that do not exist."

Crowe said, "The mental disease would disappear very rapidly if the cause of its existence were removed."

"If the state had not fastened the crime on these boys, Leopold would be enjoying himself in the gay capitals of Europe on the \$5,000 he would have wrung from Jacob Franks and indulging in his unnatural lust," Crowe cried.

Crowe attacked the honesty of the entire defense. Witnesses were placed on the stand to testify to fainting spells by Loeb so that the alienists would have a basis upon which to build their defense of mental disease, Crowe said.

**RADIO APPEAL FOR HELP FROM  
THE STRANDED  
SHIP**

(By United Press)  
Washington, Aug. 27.—Fifteen men have been marooned for weeks in the ice floes off north Alaska, according to word received by the war department. A radio appeal for help for the stranded ship was relayed to all ships in the north Pacific.

A strenuous effort will be made to rescue the men. The ice-locked vessel is the Lady Kindsley and her present position is 47 miles east of Point Barrow.

### CONCEDED TO BE BIGGEST DAY AT FAIR

**ATHLETIC PROGRAM INCLUDES  
BALL GAME, BRAINERD ELKS  
AND PEQUOT**

**HON. HAROLD KNUTSON SPEAKS  
IN MORNING, HON. THOMAS  
SCHALL IN EVENING**

Directors of the Crow Wing county fair are making special preparations to entertain Brainerd visitors on Thursday, "Brainerd Day," conceded to be the biggest day of the fair.

The program on Thursday has been extended to include a baseball game, when the Brainerd Elks team will cross bats with the Pequot nine. Both have a good record this season, and are evenly matched, so that the game promises to be a fast one and a hard fought battle.

Horseshoe tournaments are scheduled for Thursday, with L. O. Kelsen, former Brainerd man, and an authority on the game, in charge. Local pitchers are taking a keen interest in this tournament and promise to put up a hard fight against all comers.

### Speakers on "Brainerd Day"

The speakers for Brainerd Day include Hon. Harold Knutson in the afternoon and Hon. Thomas Schall in the evening. The Brainerd Boys' Band will furnish music and there will be four big feature acts of vaudeville in addition to the exhibition of auto pushball.

The evening fair was inaugurated last season, and was so very successful that it is to be repeated this year on a much larger scale. It offers those who could not attend in the afternoon an opportunity to visit the fair and listen to a good program. There will be two and one-half hours of solid entertainment on Thursday evening, more than has ever been attempted before. Much better lighting facilities have been arranged this year than were afforded last season, the only complaint that was registered about the 1923 evening fair.

Brainerd is asked to make a special effort to turn out in force on Thursday, and so make Brainerd Day the success that it has been in the past.

### Flower Exhibit at County Fair

L. P. Hall, president of the Crow Wing County Garden Flower society will go to Pequot Thursday morning to further the interests of the society. He will take flowers with him and make a display.

He would appreciate having any unusually pretty flowers from Brainerd growers and will take any that are left for him at the H. F. Michael store before 9 o'clock Thursday morning.

This will be an opportunity for Brainerd people to further the better flower gospel.

### 2,500 Entries To Date

In a telephone call to the Dispatch at noon today, D. D. Schrader stated that there were already 2,500 entries on the first half of the entry day. Mr. Schrader stated that undoubtedly this year's fair would be the largest and best that has ever been staged. More entries and a larger variety of exhibits will greet fair visitors this year, in addition to the excellent entertainment that has been provided.

### Thief Gets Car While Owner Is Watching Him

St. Paul, Aug. 27.—An auto thief, who worked disregarding the fact that the owner of the car was watching him, last night stole a car in front of the Miller hospital.

The owner, James Shourt, 301 Marshall ave., looked out of a window in the hospital just in time to see his machine ramble away. Now police have been asked to aid in finding Hupmobile sport model, 52-336-B.

SPECTACULAR FIRE IN MILL CITY

THOUSANDS WITNESS BLAZE CONSUMING WHOLESALE FEED HOUSE

(By United Press)

Minneapolis, Aug. 27.—Thousands of Twin Cities residents last night witnessed one of the most spectacular fires seen here in years when the six-story main warehouse of the Albert Dickinson company wholesale dealers in seeds and feed, was destroyed. The loss is estimated at \$150,000.

Virtually all of Minneapolis' fire fighting equipment was used in combating the flames.

One fireman was overcome by heat, one spectator was hurt and another fireman cut by falling glass.

ANCILLIARY PETITION IN BANKRUPTCY FILED

(By United Press)

Chicago, Aug. 27.—An ancillary petition in bankruptcy was filed in federal court here today against Wilson & Company, leading packers. The petition was filed by attorneys for John Eisner Company, a branch of the original firm in New York, for which receivers were appointed.

The petition is a formality and legalizes the taking over of the Chicago properties of the company.

Federal Judge James H. Wilkerson in granting the ancillary petition named Thomas E. Wilson, Julius Mayer and Abel Davis as receivers for the company.

Receivers for the company as appointed by U. S. District Judge Bundy in New Jersey are Julius M. Mayer, Thomas E. Wilson and Robert Lee Morrell.

"We are glad to report the arrival of another car of very fine eggs. We want to congratulate your association on the thorough way they

are packing eggs. In our twenty-five years of experience it is the finest summer packed egg that we have had experience with; in fact, they are superior in a good many cases to some of our local henneries, for which we are paying more money.

"The eggs are beautifully packed and finely graded and it has been a pleasure for our egg foreman to run through a car like this. We surely will be glad to consider next spring your April and May packed products.

"We assume you will have an increased supply of eggs during September and possibly the first half of October. We shall by that time probably want an extra car a week shipped."

## RIVER FLAT MAN IS CHOKED BY NECKTIE

St. Paul, Aug. 27.—With a necktie jammed down his throat, William B. Brough was found in a critical condition at 8 a. m. today.

He was under the bed in his room in a house on the flats under the W. 7th st. bridge over the Mississippi river.

At 10:15 a. m. Brough was taken to Ancker hospital, still unable to explain how he came to have the necktie in his throat.

Other roomers say he once was a prominent Iowa implement dealer, but failed in business. He has been living at the house for some time.

## HOOF AND MOUTH DISEASE A TOPIC

Discussed at Annual Convention of  
American Veterinary Medical  
Association

HELD IN DES MOINES, IOWA

Dr. C. A. Nelson, Local Veterinarian,  
Tells of Impressions Received  
at Convention

Dr. C. A. Nelson, who recently attended the annual convention of the American Veterinary Medical Association in Des Moines, Iowa, heard a very instructive lecture on the hoof and mouth disease, which did so much destructive work in California this season. Mr. Nelson noted the most interesting points of this lecture and gives them as follows:

The foot and mouth disease in California this season is the fourth time that the dreaded malady has invaded the United States. On each occasion our government, through the bureau of animal husbandry, has with its veterinarians been able to entirely stamp out the disease. It is hoped and expected that they will do so with the present epidemic.

It is interesting to learn just how the disease is transmitted across oceans. Our government maintains rigid regulations in regard to the importation of any animal or animal products as well as any other articles which may carry the disease.

Before any ocean-going vessel is allowed to enter our harbors it and all of its contents must pass a rigid inspection. All refuse is burned or thrown in the sea. After the vessels are docked or anchored in the harbor all garbage is utilized by hog-feeders, and great numbers of swine are fed from this source.

The present epidemic of the foot and mouth disease is accounted for in this manner: A Chinese ship anchored at a California port, and the inspection and disinfection of the vessel was not sufficiently rigid. The case has been traced back and it is known that the disease first made its appearance in a herd of seven hundred swine, fed from the garbage obtained from this Chinese ship.

It was not recognized as the hoof and mouth disease until two dairy herds had become infected. Two veterinarians were called and quite promptly diagnosed the malady.

The bureau of animal husbandry at Washington was immediately notified by telegraph of the epidemic. Dr. L. U. Houck, one of the bureau officials, who had fought the disease in its other outbreaks, was sojourning in California at the time, and he was immediately ordered to investigate the case. Dr. Houck confirmed the diagnosis of the other veterinarians, as the hoof and mouth disease.

Dr. John R. Mohler, chief of the bureau at Washington, at once ordered a large number of experienced veterinarians to California, and many of them were on their way within an hour, so well was the work of mobilization conducted.

In the meantime, the disease had spread to three counties. Quarantine and slaughter was ordered of all infected and adjacent herds, and in a short time it was thought that the disease was under control.

The disease next made a jump of over one hundred miles to a herd of several thousand cattle, where it was not immediately recognized. Large stock yards and packing plants became infected. There is a National forest which the government leases to large ranchers, whose herds number from 1,100 to many thousands. The epidemic spread to these herds, and it became a herculean task to eradicate it.

It is thought that at the present time the disease has been brought under control, so far as cattle are concerned, no outbreaks having occurred for several weeks. But it has been learned that the deer in the National forest are infected.

This forest consists of very inaccessible country, only two mountain passes being possible for the passage of cattle. Veterinarians are living right with these cattle, watching them night and day. The cattle will be taken out when cold weather comes, and kept under supervision. Susceptible animals will be placed in these herds to test for the disease. The forest will then be closed until the disease is eradicated from the deer.

Something in the neighborhood of four million dollars has been expended thus far in fighting the disease. Two of the finest herds of Holstein cattle on this continent were slaughtered because they were infected, and their owners were reimbursed for their loss in the sum of \$300,000.

Continental and oriental countries seem to be ravaged by the foot and

mouth disease, and it is considered impossible to eradicate it there. The mortality is not very high as a rule but in the case of a milch cow, she will be unable to eat and consequently "goes dry" or ceases to give milk. In the case of young cattle they are stunted in their growth and in the case of beef cattle, they are reduced to skin and bones.

### Mosquito Plague Ends Outdoor Pastimes for Chicago and Suburbs

Chicago, Aug. 27.—Relief from the swarm of man-eating mosquitoes which has practically destroyed outdoor life in Chicago and its suburbs during the last few weeks cannot be expected before the first frost, Dr. Henry Bundeson, Chicago commissioner of health, said.

Driven almost frantic by the blood-thirsty pests, residents particularly in the outlying districts, have practically swamped the commissioner's office with requests for advice how to combat the mosquitoes and their bites.

More than 400 calls were received yesterday.

Summer resorts have been hard hit. Beaches have been practically deserted, camping and picnic grounds have gone unvisited and golf links see almost no players.

### Coasting Accident Results in Damage Suit for \$3,500

St. Paul, Aug. 27.—Two damage suits totaling \$3,500 were filed against August H. Steglich as the result of a coasting accident last winter.

Jesse W. Jackson, father of Vera B. Jackson, 12, asks \$1,000, charging his daughter was riding on a sled on Earl st. Jan. 8 and Mr. Steglich, he alleges, was driving his automobile in a careless manner in an opposite direction.

The automobile struck the child, the complaint charges, and as a result she suffered a concussion of the brain and was disfigured and for a long time was unable to attend school.

The daughter, by her father, also sued Mr. Steglich for \$2,500 for her injuries.

## HIGHWAY SAFETY IS MINNESOTA CONCERN

STATE DEPARTMENT REPORTS  
ELIMINATION OF 523 OUT OF  
830 GRADE CROSSINGS

Making state trunk highways safer for public use at the same time they are otherwise improved, the Minnesota highway department has eliminated 263 railroad grade crossings on the 7,000-mile system, and plans the separation of 260 others. Then of the 830 death traps at the beginning, there will remain only 307, rated at time as too expensive of elimination.

Charles M. Babcock, state highway commissioner, made the foregoing announcement in a highway bulletin this week. Separation of highway and railroad grades at crossings, he said, is part of the policy of public safety adopted by the department and including special designing at curves, the warning signs, guard rails and like devices for the protection of the road users. Federal highway aid regulations bar the use of federal funds on projects from which grade crossings are possible of elimination. Despite this fact, the commissioner said, the Minnesota department has been careful about expenditures for grade separations and in many cases has received financial aid from the railroads. The benefits of doubts have been accorded the highway user, and in some instances at the risk of local criticism, he added, but it is believed that in the near future the expenditures will be proved justified.

Railroad-highway grade separations on the Minnesota trunk highway system up to Jan. 1, 1923 numbered 113, of which 61 were effected by re-locations of the roads, and the building of 15 overhead and 37 underpass structures. During 1923, there were 85 eliminations, 59 with re-locations, 9 overheads and 17 underpasses. This year 65 separations will include 57 re-locations, 5 overheads and 3 underpasses. Future plans cover 260 eliminations, 202 re-locations, 32 overheads and 26 underpasses, and leave the remainder of 267 railroad-highway grade crossings without separations in immediate prospect, according to the highway bulletin.

## THE CITY HALL PROBLEM

MANY who read the minutes of the recent council meeting doubtless wondered why the council should be so divided on the issues of the occupancy of the city hall.

The council is about evenly divided on the issue whether it is better to devote the building to the purpose for which it was built or to lease a portion of it to outside parties.

One side contends that the city hall was built to furnish adequate quarters for all offices of the city, to provide a hall where public gatherings may be held and to properly house the records of the city in the vaults built for that purpose. They contend that it costs the city approximately \$5,000 to heat, pay interest on bonds, give janitor service and meet the depreciation on the city hall alone and that the council should deliver this service to the citizens of Brainerd. They contend that at present the city clerk's records are unprotected while the city clerk's office, which has all facilities, rents for \$15 a month. They believe the hall should be devoted to the purpose for which it was built.

The other side contends that there is more room than is needed and that the council is justified in having its personnel meet in the small room intended for the police and deprive the public of a meeting place, to have the city clerk in a room without vault room, and to rent the public meeting place and three other rooms to the business college even at a very low rental that the college may be retained in the city and that the rent received from all sources approximating \$800 be added to the city treasury. The business college has paid \$480 a year.

A compromise was effected whereby the business college lease was extended until June 1, 1925, but at a rental of \$60 a month. The highway department, which has occupied the city clerk's quarters at \$15 a month, were assigned the rooms formerly occupied by the city clerk and state forester. The city clerk will occupy the rooms built for that purpose.

This will give the business college adequate time to provide new quarters and gives a definite time when the city hall will be restored to the citizens.

The mayor voted with those who would have the city hall restored to its original use.

## BRAINERD'S FLORAL ACCOMPLISHMENTS

WHEN the civic bodies of Brainerd began a campaign for a greater planting of shrubbery it was not thought that the results would be encouraging. But so much shrubbery was purchased that the express office employees marveled at the great amount which was received. The result of this shrubbery planting was very evident this summer, in beautified homes.

When the peony show was announced, few expected much of an interest; but no event in the city's recent history revealed such a spontaneity of interest. The result was a great interest in this "queen of flowers."

The recent garden flower show conclusively reveals the real love of flowers among the residents of Brainerd. Many a visitor to the show expressed the thought that "next year there will be more and better flowers in the yard which surrounds my home."

All this has been done without great cost to any one individual, but the city is and will be a much prettier city, where greater contentment cannot but be the result.

Those who intend to carry out their resolutions should remember that now is the time to put in the iris rhizomes, and that September is the month to plant peony roots. Peonies take two and three years to develop, and those who plant them this fall will not only insure their own pleasure, but add to the value and attractiveness of our city by beautifying it. Brainerd has such a splendid start in flower growing that it should be continued and increased.

## THE STATE FAIR DAILY

LARRY HODGSON is editor of the State Fair Daily which operates during the life of the fair. His associate editor is T. E. Stewart and the latter is making an early drive for copy.

Last year "Larry" had a bale of promises, but only a handful of tangible copy. In spite of extravagant promises to write something for his paper, the staff of distinguished contributors, which we believe included Frank Day, Alvah Eastman, Vasaly, Stillman H. Bingham, Alexander F. Jones, Eunice Brotherton, Joe McDermott, Captain William H. Fawcett, Theodore Johnson, Heinie Mitchell, Doc Rutledge, and other distinguished literary lights, there was little copy forthcoming.

This year it's going to be different. Everybody is determined to write a story and get it in "Larry" Hodgson's family journal. It will be done, even if we have to grind out our copy the last minute of the last day, just as the train whistles for the last crossing out of Brainerd.

Mr. Stewart has asked us to write about Brainerd and our Lake Region and put an elastic limit on the effusion, to run from 700 to 1,500 words, plus any pictures we can find to embellish the article. It shall be done, Mr. Stewart.

## LEOPOLD-LOEB CASE

THE Leopold-Loeb case has brought to view several new angles in defense of alleged criminals. Clarence Darrow has advanced the argument that the boys are too crazy to be hanged and not crazy enough to be incarcerated in an insane asylum.

He has a difficult course to steer, for on the very startoff, the boys, it seems, had sense enough to plead guilty. It is the law of reason, without reference to any copious law books, that only a sane man can plead guilty or not guilty.

To the man in the street, testimony offered by alienists is very confusing. Their whole testimony is that of experts arriving at conclusions. The mind is a very subtle thing. There have been advances in medicine and surgery, but treatment of mental diseases is still little advanced.

Whether sane or insane, boys of the cast of mind like Leopold and Loeb are not safe to be left to their own devices and permitted to prey on society. If given "life," it must be such a sentence and not release after 10 or 20 years.

## Brainy Children Come From Small Families

Do not pity the only child. He has more brains than children with many brothers and sisters, according to conclusions reached by Dr. Horrell Hart as a result of a study of 990 families in a typical Iowa city. The results have been reported to the Iowa child research station at Iowa City, Iowa. Children from large families are handicapped mentally, morally and socially, Doctor Hart declares.

In a representative sample of children from practically completed families in Davenport, Iowa, the ability of the children, as determined by mental tests, was found generally to run higher the fewer the number of surviving children. Children with no living brothers or sisters tend to have mental test quotients about 15 points higher than children with 11 living brothers and sisters, and the average mental test ability decreases fairly steadily as the size of the families increases.

"School progress, that is in excess of the amount to be expected from mental test ability, is at a maximum in families of four or five living children, and at a minimum in families of ten children or over," Doctor Hart says. "The difference between the progress in school of these two groups is such that the average child in the very large family loses about one-third of a year through conditions other than mental test ability associated with large families."

"The larger the family the greater the tendency is for the children to leave school at the earliest possible age."

"Of families with seven or more living children, 14 per cent are chronically dependent, as compared with 3 per cent among families with six children or less."

"As far as can be ascertained from teacher's ratings, children in large families are less energetic, less kind, less sincere and less honest than children from small families. This conclusion is fairly certain for energy, but not so decisive for the other characteristics."

"Contrary to general impression, children without brothers and sisters compare very favorably with children having brothers or sisters. Birth order, as far as it was studied in this inquiry, appears to have very little significance."—Kansas City Times.

## Man of Mystery

In Major Beaufort's enforced absence his old black servant Lem was under instructions to welcome the expected guest.

When Mr. Allen was settled comfortably before the library fire, Lem asked as a matter of course, "Can I mix you a highball, sah?"

"No, thanks, Lem."

"Take it straight, sah?"

"No, thanks."

This guest was going to be hard to entertain. Bringing in a humidor, Lem urged:

"Try one of Mistah Jim's cigars, sah. They's vey fine!"

"No, Lem. Thanks just the same, but I don't smoke."

Lem looked puzzled; then: "Beg yo' pardon, sah, but would you mind tellin' me what you does to make you smell like a gentleman?"—Everybody's Magazine.

## Took Name From Crow

In using the ordinary crowbar few of us connect that heavy implement with the crow. Dictionary research is needed to explain the relation of the two words. Investigation shows that a crowbar is defined as "a bar with a strong beak, like that of a crow."

The beak of a crow is one of the bird's most powerful tools and weapons. When the first crowbars were fashioned it was only natural that the makers should see the resemblance of it prying end to the beak of the bird, and the use of the name "crowbar" was entirely logical. The bird itself, incidentally, took its name from the nature of its cry, suggesting the old Anglo-Saxon word "crawan." In the Anglo-Saxon tongue "crawan" was equivalent to the English verb "to crow."

## Famous Work of Art

The victory of Samothrace is a superb fragment of ancient sculpture now in the Louvre at Paris. It consists of a colossal winged statue, without head or arms, carved in commemoration of the naval victory of Demetrius Poliorcetes, 305 B. C. This figure, which is represented as alighting on the prow of a galley, is remarkable for its noble proportions and grand vitality, making it one of the masterpieces of the majestic style.—Kansas City Star.

## Vital Statistics

Among facts regarding health brought out in analysis of recently issued census bureau figures are that cities show a more rapid decline in mortality than do the rural districts; that persons of mature age show an increase in length of life, and that there has been a continuation of the general improvement in the expectation of life at birth, with colored persons showing greater improvement than the whites.

## TRACHOMA SEEN AS WORLD MENACE

## DREAD EYE DISEASE OF ORIENT MOST ANCIENT HUMAN ILL

New York, Aug. 27.—Trachoma, dread eye disease of the Orient and most ancient of recognized human ills, is seen as a world menace by Dr. R. T. Uhls, of Kansas City, noted American eye specialist, who has returned to this country after an exhaustive survey of the disease throughout the Levant in behalf of the Near East Relief.

Dr. Uhls, after three years of service as eye specialist of the relief organization, began his final survey six months ago, travelling from Armenia across Persia and Turkestan to Afghanistan and the Chinese border. Because of his success in combating the disease in Armenia, the Moscow Government, which controls most of the territory in which his researches were conducted, opened public health records to him and ordered the co-operation of native physicians.

Infection runs higher than fifty per cent of the total population in all areas visited, according to Dr. Uhls, with a very large proportion of blindness as a direct result of the disease.

The demoralization of native health services since the war and the tremendous lowering in the standards of living caused by invasion and periods of famine are chiefly responsible for the marked increase in trachoma, Dr. Uhls said. He said his researches showed that the disease could be prevented and cured, however, and he pointed to the results obtained by the Near East Relief in Armenia, where eleven thousand cures have been effected among children in the relief organization's orphanages, more than eight thousand having been cured during the past year.

"Relief measures also are contributing indirectly to the fight against trachoma in Armenia by the improved methods of sanitation which Americans have introduced and to the increased interest in healthier living conditions which they have awakened in the people," Dr. Uhls said. "With the cooperation of the Government, a public health service has been organized that is carrying on an effective educational campaign among the peasants in the outlying districts and the more ignorant people in the slums of the cities."

## Causes of Earthquakes

What produces earthquakes is a problem not yet settled to the satisfaction of the scientist. Tremors of the earth may be caused by explosion of mines, falling in of caves, slipping of rock strata and many other movements of the earth, but these do not explain the great shocks satisfactorily. Earthquakes are likened with volcanic activity, but which of the two is cause and which effect is not known.

## Original Daylight Saving

Daylight saving, as we know it, had its inception in England in 1907 in a book published by William Willett, entitled "The Waste of Daylight." A daylight-saving law was enacted in Great Britain in 1916, and in the following year in Denmark, Germany, Holland, Italy, France, Portugal and Australia.

## A Friend Indeed

She was crazy about Harry because he danced divinely, sang like an angel and played tennis like a young god.

She was just wild about George, who had curly eyelashes and pots of money in the bank.

She loved to motor in Reggie's two-seater, and gloried in his pretty speeches.

She listened to Archie's poetry with fast-beating heart and cheek pink flushed.

She confessed herself hypnotized by Henri—he was so attractive.

She was fascinated by Hugh—his ties and socks always matched so superbly.

And Bob, dear old thing, had said she had small feet!

But she married Jack, who had none of these qualities, because she thought her dearest friend wanted him.—Judge.

"Of families with seven or more living children, 14 per cent are chronically dependent, as compared with 3 per cent among families with six children or less."

"As far as can be ascertained from teacher's ratings, children in large families are less energetic, less kind, less sincere and less honest than children from small families. This conclusion is fairly certain for energy; but not so decisive for the other characteristics."

"Contrary to general impression, children without brothers and sisters compare very favorably with children having brothers or sisters. Birth order, as far as it was studied in this inquiry, appears to have very little significance."—Kansas City Times.

## Man of Mystery

In Major Beaufort's enforced absence his old black servant Lem was under instructions to welcome the expected guest.

When Mr. Allen was settled comfortably before the library fire, Lem asked as a matter of course, "Can I mix you a highball, sah?"

"No, thanks, Lem."

"Take it straight, sah?"

"No, thanks."

This guest was going to be hard to entertain. Bringing in a humidor, Lem urged:

"Try one of Mistah Jim's cigars, sah. They're ve'y fine!"

"No, Lem. Thanks just the same, but I don't smoke."

Lem looked puzzled; then: "Beg yo' pardon, sah, but would you mind tellin' me what you does to make you smell like a gen'lman?"—Everybody's Magazine.

## Took Name From Crow

In using the ordinary crowbar few of us connect that heavy implement with the crow. Dictionary research is needed to explain the relation of the two words. Investigation shows that a crowbar is defined as "a bar with a strong beak, like that of a crow." The beak of a crow is one of the bird's most powerful tools and weapons. When the first crowbars were fashioned it was only natural that the makers should see the resemblance of it prying end to the beak of the bird, and the use of the name "crowbar" was entirely logical. The bird itself, incidentally, took its name from the nature of its cry, suggesting the old Anglo-Saxon word "craean." In the Anglo-Saxon tongue "craean" was equivalent to the English verb "to crow."

## Famous Work of Art

The victory of Samothrace is a superb fragment of ancient sculpture now in the Louvre at Paris. It consists of a colossal winged statue, without head or arms, carved in commemoration of the naval victory of Demetrius Poliorcetes, 305 B. C. This figure, which is represented as alighting on the prow of a galley, is remarkable for its "noble proportions and grand vitality, making it one of the masterpieces of the majestic style."—Kansas City Star.

## Vital Statistics

Among facts regarding health brought out in analysis of recently issued census bureau figures are that cities show a more rapid decline in mortality than do the rural districts; that persons of mature age show an increase in length of life, and that there has been a continuation of the general improvement in the expectation of life at birth, with colored persons showing greater improvement than the whites.

## Changed His Mind

Jack—Then you didn't ask for her hand?

Tom—No; when I went to interview her father he was busy with the furnace. He called out to me to come down and after watching his struggles for half an hour and seeing that he said about coal, I decided to get married.—Boston Transcript.

At the 58th annual encampment of the Grand Army of the Republic, held in Boston, Dr. Louis F. Arenberg, of Uniontown, Pa., was chosen as commander-in-chief. He has served as commander of the department of Pennsylvania and is a trustee of the Soldiers and Sailors State Home at Erie, Pa.

## TRACHOMA SEEN AS WORLD MENACE

## DREAD EYE DISEASE OF ORIENT MOST ANCIENT HUMAN ILL

New York, Aug. 27.—Trachoma, dread eye disease of the Orient and most ancient of recognized human ills, is seen as a world menace by Dr. R. T. Uhls, of Kansas City, noted American eye specialist, who has returned to this country after an exhaustive survey of the disease throughout the Levant in behalf of the Near East Relief.

Dr. Uhls, after three years of service as eye specialist of the relief organization, began his final survey six months ago, travelling from Armenia across Persia and Turkestan to Afghanistan and the Chinese border. Because of his success in combating the disease in Armenia, the Moscow Government, which controls most of the territory in which his researches were conducted, opened public health records to him and ordered the co-operation of native physicians.

Infection runs higher than fifty per cent of the total population in all areas visited, according to Dr. Uhls, with a very large proportion of blindness as a direct result of the disease.

The demoralization of native health services since the war and the tremendous lowering in the standards of living caused by invasion and periods of famine are chiefly responsible for the marked increase in trachoma, Dr. Uhls said.

He said his researches showed that the disease could be prevented and cured, however, and he pointed to the results obtained by the Near East Relief in Armenia, where eleven thousand cures have been effected among children in the relief organization's orphanages, more than eight thousand having been cured during the past year.

"Relief measures also are contributing indirectly to the fight against trachoma in Armenia by the improved methods of sanitation which Americans have introduced and to the increased interest in healthier living conditions which they have awakened in the people," Dr. Uhls said. "With the cooperation of the Government, a public health service has been organized that is carrying on an effective educational campaign among the peasants in the outlying districts and the more ignorant people in the slums of the cities."

## Causes of Earthquakes

What produces earthquakes is a problem not yet settled to the satisfaction of the scientist. Tremors of the earth may be caused by explosion of mines, falling in of caves, slipping of rock strata and many other movements of the earth, but these do not explain the great shocks satisfactorily. Earthquakes are likened with volcanic activity, but which of the two is cause and which effect is not known.

## Original Daylight Saving

Daylight saving, as we know it, had its inception in England in 1907 in a book published by William Willett, entitled "The Waste of Daylight." A daylight-saving law was enacted in Great Britain in 1916, and in the following year in Denmark, Germany, Holland, Italy, France, Portugal and Australia.

## A Friend Indeed

She was crazy about Harry because he danced divinely, sang like an angel and played tennis like a young god. She was just wild about George, who had curly eyelashes and pots of money in the bank.

She loved to motor in Reggie's two-seater, and gloried in his pretty speeches.

She listened to Archie's poetry with fast-beating heart and cheek pink flushed.

She confessed herself hypnotized by Henri—he was so attractive.

She was fascinated by Hugh—his ties and socks always matched so superbly.

And Bob, dear old thing, had said she had small feet!

But she married Jack, who had none of these qualities, because she thought her dearest friend wanted him.—Judge.

## BARREL ROLLING FOR DROWNING PERSONS FATAL

STRONGLY CONDEMNED AS HAZ-  
ARD WHEN PRONE PRESSURE  
DOES SAVE PRECIOUS LIVES

CASES KNOWN WHERE LIFE WAS  
RESTORED AFTER 30 MIN-  
UTES IN THE WATER

Strong condemnation of barrel rolling to revive persons taken unconscious from the water expressed at Red Cross National Headquarters has resulted in wide attention to this abuse. The barrel as a pumping device to free the lungs of water is most hazardous. It is to nearly drowned persons almost as certain in dealing death as a dose of corrosive poison is to a determined suicide.

The case of a youth dying when after 14 minutes in the water he was rolled on a barrel and still showed signs of life when an ambulance doctor arrived from a Washington hospital aroused the protests of the Red Cross personnel which is spreading knowledge of water safety throughout the country.

### Barrel Rolling Outlawed.

The simplicity of the recognized and approved method of prone pressure resuscitation with the hands upon a person weakened by water immersion has outlawed the barrel-rolling and has demonstrated how much more effective is this much easier and more convenient method. The Life-Saving Service points out that probably more lives have been sacrificed during the minutes lost in searching for a barrel than were preserved through use of the barrel.

Prone pressure, which is applied with the hands to the small of the back with the subject lying face downward, effectually exudes the water and bad air from the lungs and stimulates heart action. It has revived many persons taken from the water after immersion as long as the boy in question. Cases have been known where life was restored after immersion as much as 30 minutes.

### Be Warned of Danger

The Red Cross issues this warning: "Forget the barrel; waste no time. Lay the victim on his stomach; extend one arm directly over the head; bend the other arm at the elbow and rest his cheek on the hand to keep his nose and mouth off the ground. Kneel, facing forward, straddling his legs. Place palms of hands on each side of back just above belt line. With arms straight lean gradually forward, pressing downward and forward and counting slowly, one, two, three. Swing your body back, counting slowly, four, five. Straighten arms and repeat pressure. Keep up work steadily until breathing begins. Unless a doctor takes charge, remove victim well covered on a stretcher to a hospital or to his home. Don't get discouraged; stick to it for two, or even three hours if necessary."

The American Red Cross will gladly supply an authoritative pamphlet of Life-Saving and Resuscitation upon application, addressing request to Washington, D. C.

Wilcox is a graduate of Cornell and the University of Iowa, and the Teachers College of Columbia University.

## FOR THRILLS, TRY BAGDAD RAILWAY

Constantinople, Aug. 27.—The Bagdad Railway is now operating a through service three times a week between Constantinople and Aleppo. The journey requires three days, and the trains are without sleeping cars or diners. Dr. James I. Vance of Nashville, Tenn., who is here on a special mission for the Near East Relief, says of the trip:

"One soon learns to adapt himself to anything. The journey is of considerable personal discomfort, but full of interest and picturesqueness. The country is obviously under-populated and cultivation is inadequate. But the possibilities of interior Turkey are unlimited. The soil is rich, particularly suited for tobacco, cotton and fruits."

"I have rarely seen mountain scenery bolder, more beautiful or more terrifying than the ranges of the Taurus. I commend this region to movie stars who seek new thrills."

## GREECE GETS MORE REFUGEES

Geneva, Switzerland, Aug. 27.—H. C. Jaquith, director of the Near East Relief in Greece, has arrived here for conferences with the League of Nations regarding the refugee situation there. "Two hundred thousand additional refugees are expected in various Greek ports during the next three months," said Mr. Jaquith. "They are the final consignment of peoples under the treaty for exchange of populations between Turkey and Greece. A tremendous problem is presented in providing accommodations for them. The Near East Relief will do all it can to assist, but the financial resources of this organization are already strained by its existing orphanage work. The past year in the Near East has witnessed the greatest forced migration of peoples in the history of the world."

### Took Parrot's Advice

It was close and sultry, a storm was coming up, causing my rheumatic pains to make me groan. I was alone. From behind a voice said, "Forget it." I looked and saw no one. The voice repeated, "Forget it." In the transom of the door opening on the rear porch sat a parrot, which belonged to a lady across the alley. It had flown away when its cage was being cleaned. When my rheumatism pains me I think of the parrot and forget it.—Exchange.

## CATTLE BUYER IS FINED FOR USING WEIGHT 'SHRINKER'

St. Paul, Aug. 27.—William Gos-

mant, a cattle buyer at Peterson, Minn., was fined \$100 late yesterday for using a "shrinker" on his scales in buying cattle.

News of the fine was received at the state railroad and warehouse

commission offices this morning.

The "shrinker," it was explained, is a small piece of metal, carried easily in a vest pocket, and attached to a scale in a fraction of a second.

It is so attached that it greatly alters the weights.

## Cleanliness and Care in Manufacture

Every Lucky Strike factory is a model of sanitation. Read how Alfred W. McCann, the noted food expert describes one of our factories: "White walls and ceilings, floors as clean as freshly chiseled marble, cutting machines and wrapping machines that take away from the human hand all detail and leave nothing to the human supervision but the watchfulness of trained eyes."

## Facts About Taxes on Cigarettes

WE call particular attention to the statements made in the advertisement adjoining this editorial column.

This advertisement, the purpose of which is to win new friends for Lucky Strike cigarettes, incidentally emphasizes the matter of high taxes on cigarettes.

To those who are intimate with such matters there is, of course, no surprising statement made.

To the general public, though, we believe it will be surprising to learn that nearly half of what they pay for cigarettes goes to the government for taxes.

The internal revenue stamp on a package of twenty Lucky Strike cigarettes costs you six cents. On a tin of one hundred the revenue stamp costs you thirty cents.

So nearly fifty cents out of every dollar you spend for cigarettes is spent by you for taxes.

This is certainly the heaviest tax on an article of daily and universal consumption.

## The Tobacco Industry and Taxes

The aggregate tax paid by the tobacco business is with one exception, income taxes, the largest item of internal revenue the federal government receives. Last (fiscal) year it amounted to \$399,014,050.84.

Of this enormous amount of money the cigarette industry paid \$182,715,735.93, or nearly two-thirds of the total tax paid by the entire tobacco business.

The immediately important point of the foregoing is the following: We believe you will appreciate that when nearly fifty cents of every dollar paid by you for cigarettes goes to the government, you must receive in cigarettes a value in return for your money that is rarely given in any commodity.

That the public generally appreciates this great value is shown by the enormous increase in the consumption of cigarettes.

## Our reasons for this tax free offer

We know this offer induces men to try Lucky Strikes—it "Wins New Friends."

We know that a large percentage of those who get acquainted with Lucky Strikes adopt them.

This isn't philanthropy nor propaganda—just good business, as you'll agree.

The offer is limited. We cannot afford to keep it up.

We make it sensationally generous so as to attract attention.

We are not giving money away for the offer accomplishes its purposes: Lucky Strike "Wins New Friends." Our volume increases.

## Super-quality

It is only by immense volume that we can produce such an aristocratic cigarette as Lucky Strike at such a democratic price.

Its quality is supreme because it has that costly, extra process, toasting, which improves the flavor and adds to the taste of even the finest tobaccos that are used in Lucky Strikes.

We urge you to participate in this offer—we want you to get acquainted with Lucky Strikes.

We know a trial will make you a permanent customer of ours.

Constantinople, Aug. 27.—The Bagdad Railway is now operating a through service three times a week between Constantinople and Aleppo. The journey requires three days, and the trains are without sleeping cars or diners. Dr. James I. Vance of Nashville, Tenn., who is here on a special mission for the Near East Relief, says of the trip:

"One soon learns to adapt himself to anything. The journey is of considerable personal discomfort, but full of interest and picturesqueness. The country is obviously under-populated and cultivation is inadequate. But the possibilities of interior Turkey are unlimited. The soil is rich, particularly suited for tobacco, cotton and fruits."

"I have rarely seen mountain scenery bolder, more beautiful or more terrifying than the ranges of the Taurus. I commend this region to movie stars who seek new thrillers."

## GREECE GETS MORE REFUGEES

Geneva, Switzerland, Aug. 27.—H. C. Jaquith, director of the Near East Relief in Greece, has arrived here for conferences with the League of Nations regarding the refugee situation there. "Two hundred thousand additional refugees are expected in various Greek ports during the next three months," said Mr. Jaquith. "They are the final consignment of peoples under the treaty for exchange of populations between Turkey and Greece. A tremendous problem is presented in providing accommodations for them. The Near East Relief will do all it can to assist, but the financial resources of this organization are already strained by its existing orphanage work. The past year in the Near East has witnessed the greatest forced migration of peoples in the history of the world."

### Took Parrot's Advice

It was close and sultry, a storm was coming up, causing my rheumatic pains to make me groan. I was alone. From behind a voice said, "Forget it." I looked and saw no one. The voice repeated, "Forget it." In the transom of the door opening on the rear porch sat a parrot, which belonged to a lady across the alley. It had flown away when its cage was being cleaned. When my rheumatism pains me I think of the parrot and forget it.—Exchange.

## CATTLE BUYER IS FINED FOR USING WEIGHT 'SHRINKER'

St. Paul, Aug. 27.—William Gos-

mant, a cattle buyer at Peterson, Minn., was fined \$100 late yesterday for using a "shrinker" on his scales in buying cattle.

News of the fine was received at the state railroad and warehouse

commission offices this morning.

The "shrinker," it was explained, is a small piece of metal, carried easily in a vest pocket, and attached to a scale in a fraction of a second.

It is so attached that it greatly alters the weights.

# To win new friends

## 100 Lucky Strikes— TAX FREE

We invite every smoker in this city to take advantage of this startling offer.

We've told you about Lucky Strike superiority.

Your friends have told you. Now know for yourself the value of the toasting process!

We make this proposition to win new friends.

The regular price of a tin of 100 Lucky Strikes is 75c

You pay the dealer only 45c

We pay the Government Tax of 30c

Act quickly, as the dealer's allotment at this price is limited.

Get one tin [only one to a person] for home or for office.

The regular price will be in effect when the dealer's supply on this offer is sold.

Smoke these 100 Lucky Strikes. Then you'll know how the 45-minute toasting process adds to the flavor and improves the taste.

## Cleanliness and Care in Manufacture

Every Lucky Strike factory is a model of sanitation. Read how Alfred W. McCann, the noted food expert describes one of our factories: "White walls and ceilings, floors as clean as freshly chiseled marble, cutting machines and wrapping machines that take away from the human hand all detail and leave nothing to the human supervision but the watchfulness of trained eyes."

## Facts About Taxes on Cigarettes

WE call particular attention to the statements made in the advertisement adjoining this editorial column.

This advertisement, the purpose of which is to win new friends for Lucky Strike cigarettes, incidentally emphasizes the matter of high taxes on cigarettes.

To those who are intimate with such matters there is, of course, no surprising statement made.

To the general public, though, we believe it will be surprising to learn that nearly half of what they pay for cigarettes goes to the government for taxes.

The internal revenue stamp on a package of twenty Lucky Strike cigarettes costs you six cents. On a tin of one hundred the revenue stamp costs you thirty cents.

So nearly fifty cents out of every dollar you spend for cigarettes is spent by you for taxes.

This is certainly the heaviest tax on an article of daily and universal consumption.

## The Tobacco Industry and Taxes

The aggregate tax paid by the tobacco business is with one exception, income taxes, the largest item of internal revenue the federal government receives. Last (fiscal) year it amounted to \$309,014,050.84.

Of this enormous amount of money the cigarette industry paid \$182,715,735.93, or nearly two-thirds of the total tax paid by the entire tobacco business.

The immediately important point of the foregoing is the following: We believe you will appreciate that when nearly fifty cents of every dollar paid by you for cigarettes goes to the government, you must receive in cigarettes a value in return for your money that is rarely given in any commodity.

That the public generally appreciates this great value is shown by the enormous increase in the consumption of cigarettes.

## Our reasons for this tax free offer

We know this offer induces men to try Lucky Strikes—it "Wins New Friends."

We know that a large percentage of those who get acquainted with Lucky Strikes adopt them.

This isn't philanthropy nor propaganda—just good business, as you'll agree.

The offer is limited. We cannot afford to keep it up.

We make it sensationally generous so as to attract attention.

We are not giving money away for the offer accomplishes its purposes: Lucky Strike "Wins New Friends." Our volume increases.

## Super-quality

It is only by immense volume that we can produce such an aristocratic cigarette as Lucky Strike at such a democratic price.

Its quality is supreme because it has that costly, extra process, toasting, which improves the flavor and adds to the taste of even the finest tobaccos that are used in Lucky Strikes.

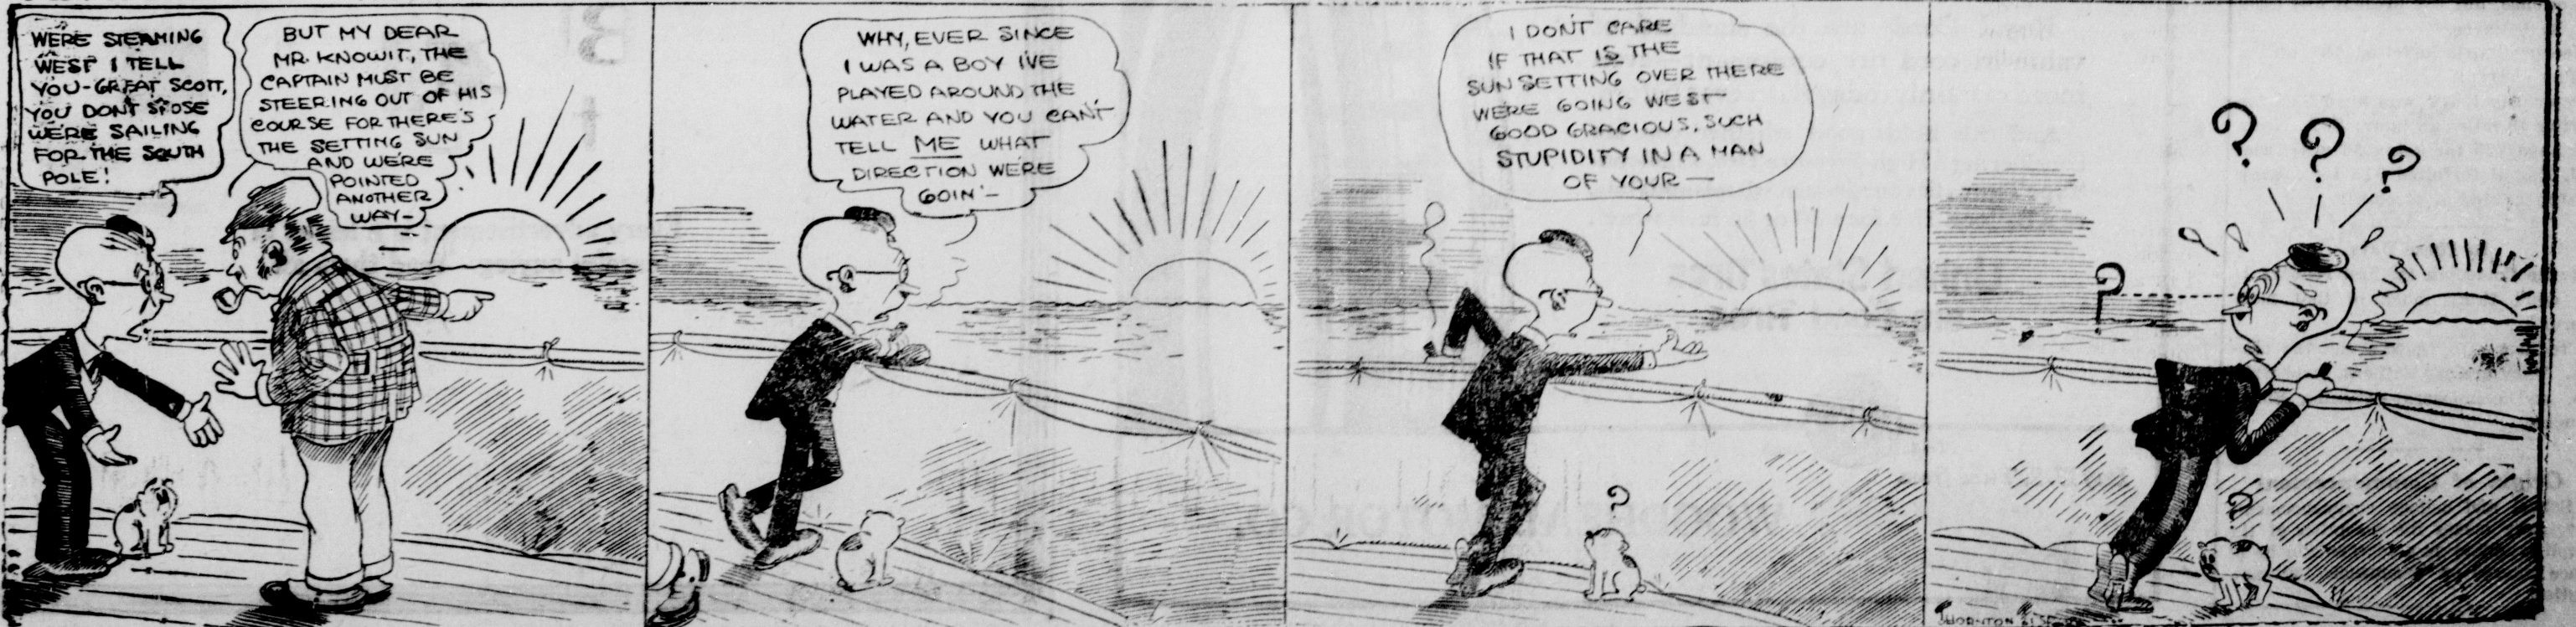

We urge you to participate in this offer—we want you to get acquainted with Lucky Strikes.

We know a trial will make you a permanent customer of ours.

150 COMMUNITIES REPRESENTING  
50 COUNTIES IN MINNE-

MARSHALLING ORGANIZED TRAIN,  
AUTO AND BUS DELE-  
GATIONS

One hundred and fifty communities representing 80 counties in Minnesota are cooperating with the Northwest Dairy Exposition Committee in marshalling organized train, auto, and bus delegations of farmers and business men to travel to the Committee's second annual Dairy Exposition opening Saturday in conjunction with the Minnesota State Fair.

All that remains, according to an announcement from the Committee's headquarters on the Fair grounds, is to complete the arrangements for a royal welcome when the visitors reach the Twin Cities.

Heading the list of these delegations is an automobile caravan of 250 cars from 12 Red River Valley counties carrying nearly 800 farmers and business men to the exposition.

Each business and civic organization in the valley cities is furnished one car driven by a business man to carry from three to five farmers. The tour will start from the northern counties Saturday and travel southward through the valley gathering strength as it goes. Other groups will join it Sunday and at St. Cloud, where the cavalcade will stop Sunday night, special entertainment features have been planned by the Commercial Club.

The caravan will parade from St. Cloud down the pavement in full strength on Monday morning, September 1, with bands, flags, floats and banners. About noon the pilgrimage will parade both Minneapolis and St. Paul before proceeding to the grounds.

Another new group of visitors to come to the "dairy show" in force is being organized in the 48th Minnesota legislative district, embodying Big Stone, Traverse, Stevens and Grant counties, and will arrive over the highway on Monday. Their slogan is "West Central Minnesota—purebred sires, tuberculin tested cows, and certified alfalfa." They will bring a float depicting the dairy progress of their community.

"Kows, Klover and Korn" is the slogan of a delegation coming by automobile from Todd, Hubbard and Wadena counties, emphasizing their dairy cattle, sweet clover, and quality corn. Watonwan county in southwestern Minnesota will again send a special train to the exposition according to word received from Lloyd E. Hudson at St. James.

Other special trains will come representing Winona county, Blue Earth, Brown, Martin, Crow Wing, Houston and other counties, while automobiles will bring delegations from Nicollet county, Goodhue, Isanti, Carlton, Steele, Olmstead, Mower and Freeborn counties. The Scott county delegation will travel by chartered bus.

## BRAKE WAR IN ST. PAUL COURTS

St. Paul, Aug. 27.—Police carried their drive against defective brakes to municipal court when they sent two motorists to answer charges today.

L. A. Lampert pleaded guilty to a defective emergency brake. His car was parked on Cedar st. yesterday noon and started to move down the hill at 4th st. It was caught by Gus Bisman, a police operator, after it had gone 15 feet.

Judge John W. Finchout continued the matter until tomorrow to see if there is a law covering defective brakes. The new ordinance now before the council carries a penalty for this offense, but the present one does not, he believes.

George Smith forfeited \$5 on a similar charge.

Peter Bigelback was fined \$15 for driving 40 miles an hour; C. A. Knox was fined \$25 for going 35 miles and S. J. Engell forfeited \$15 for failing to stop behind a streetcar.

## CHIPPEWA INDIANS AIR GRIEVANCES BEFORE COMMITTEE

Benidji, Minn., Aug. 27.—Minnesota Chippewa Indians, with grievances against the way their affairs have been handled, had their day here today at the first session of the senate subcommittee hearing.

Outside of brief preliminaries at the opening, all of the time was devoted to hearing the case of one of four major factions as presented by Webster Ballinger, Washington, D. C. attorney. Ballinger represents the mixed bloods who comprise about two-thirds of the 12,000 Minnesota Chippewas.

About 100 Indians attended today's sessions. They represent four major factions, namely a general Chippewa council, comprising the mixed bloods, Ed Rogers, president; a general Chippewa council, comprising full bloods, Ben Caswell, president; the United Chippewa council of both mixed bloods and full bloods, James Coffey, president, and the Red Lake council, Peter Graves, president.

The subcommittee which consists of Senators John W. Harrell, Oklahoma, chairman; John Kendrick, Wyoming, and Lynn Frazier, North Dakota, decided to meet in Benidji again Wednesday, go to Cass Lake Thursday and to Red Lake Friday.

Ballinger charged that the allotments have been made on an "unequal and partial basis without regard to provisions of the treaty," and that "heavily timbered lands as disposed of were classed as agricultural lands for which the Indians received \$1.25 per acre, the established price for such lands."—Duluth News Tribune.

## DOVE OF PEACE HOVERS OVER THE COUNCIL

Benidji, Minn., Aug. 27.—Agreement between the various factions of the Chippewa Indians of Minnesota and the senate subcommittee on Indian affairs on at least part of the matters in dispute at the hearing which opened here Tuesday seemed apparent today as the committee, consisting of Senator Harrell of Oklahoma, chairman, Senator Frazier, North Dakota, and Kendrick, Wyoming, entered the second day of its opening hearing.

An effort will be made to complete the hearing today so that the committee may visit Cass Lake and Red Lake in order to secure more details on the handling of Indian affairs and the conditions of the Chippewas in northern Minnesota.

All factions of the Chippewas, of which there are at least four, will be given an opportunity to be heard, regardless of their official or unofficial representative, the committee desiring to hear all sides of the dispute over the handling of Indian lands and the allotment question.

Commissioner Burke of the Indian Bureau plans to present arguments for relief of the Indians and for settlement of existing difficulties at today's session of the committee. Webster Ballinger, Washington attorney, representing one faction of the Chippewas, occupied most of Tuesday's

Emil Jannings and Dagny Servaes in a scene from the Paramount Picture "Peter the Great."

"Peter the Great," which is showing at the Lyceum Theatre tonight and Thursday, is the Russian "Birth of a Nation."

It is the story of a great nation's rise through bloody battle and raw courage, under the leadership of one of the world's greatest and bravest men, from the ignominious position as cat's paw for little nation's to the glorious position as world-power.

It is the story of the loves and exploits of a lovable, intensely hu-

man man—Peter. It shows him in moments of passion with many women; it shows him stealing the heart of the voluptuous tiger-woman, Catherine, away from his own prime minister and making her his; it shows him fighting a conspiracy headed by his own son and in hand-to-hand conflict with the assassin who invades the Czar's private bedroom on his wedding night; it shows him joking, dancing, fighting, living the most intense, colorful, thrill-filled life you could imagine.

afternoon session and the committee hopes today to hear from the other factions.

Some of the mixed bloods and a few of the full bloods believe an election would solve many of their disputes not centering around Chippewa policies, but it is doubtful if the various factions would agree on such an election to secure united representation, although an election has been suggested.

## GROCERY CHAIN FIRM BOOSTS MINN. BUTTER

In testimony of its confidence in the product of the Minnesota Cooperative Creameries Association, with which it recently closed a contract for three cars of butter a week, a chain store concern in New York is planning to advertise in all the New York daily papers the fact that it handles the Association's butter.

This concern controls 850 stores in New York City alone. It is only because the Creameries Association is unable to supply these stores with more butter that the contract does not call for a greater amount. The chain company could use seven cars if the Association were in position to supply this amount. It is the first New York chain company to buy a strictly quality butter.

During a recent week the Minnesota Cooperative Creameries Association shipped butter to New Orleans, La.; Richmond, Va.; New Haven, Conn.; Denver, Colo.; and Springfield, Mass. This was the first time that Minnesota butter had ever been shipped to any of these cities. The association is finding new markets for its butter almost every day.

### Is H. G. Wells Right?

Will our present civilization with its flimsy superstructure of jazz and moral laxity crumble after the manner of long-gone Rome? Will the ages to come record the decline of our vaunted progress, of our arts and our vast commercial enterprises? Will our craving for pleasures, the withering pace of our daily life, the ever-spreading disregard of moral obligations combine some day to wreck our civilization and send it hurtling into the dust along with the long-forgotten civilization of the past?

This question has occupied the minds of hundreds of great authors for years. H. G. Wells states frankly that our civilization is tottering. Others are not so pessimistic, but they all see in the speed with which we are traveling a menace to the future generations.

It remained for Daniel Goodman to give one of the most novel and powerful answers to this great world problem, and he does it in his latest and greatest photoplay, "Has the World Gone Mad?" It comes to the New Park Theatre on Thursday and Friday.

## GARDEN AND FLOWER SHOW

Successfully Given Under Auspices of  
N. E. Brainerd Improvement  
League

### WINS THE HIGHEST PRAISE

There Were Flowers in Profusion,  
Good Exhibit of Vegetables,  
Large Display of Fancy Work

The garden and flower show, staged at Lum park on Tuesday afternoon and evening, under the auspices of the Northeast Brainerd Improvement League, was a decided success, and brought forth many favorable comments and the highest praise.

There were flowers in profusion, a good exhibit of vegetables, and a large display of fancy work.

The majority of the flowers and vegetables were raised by children in Northeast Brainerd and were entered in competition for prizes offered by the League. The grown-ups also had flowers and vegetables on exhibit, but received no premiums thereon.

A large attendance greeted the exhibit and all were astonished at the excellent showing that the Third ward had made, and many voiced the opinion that the show should be perpetuated next year on a bigger and broader scale. All of the lady visitors were very much impressed with the fancy work on display. Many of the pieces were more than one hundred years old and were made in the old country, Austria, Hungary, Germany and Norway.

The Brainerd Municipal band held its last concert of the season at Lum park on Tuesday evening, which did much to attract the crowds to the exhibit. The last three numbers of this concert were played in the pavilion by request of the League.

The list of prizes winners among the boys and girls will be published in Thursday's issue of the Dispatch.

## EAT MUSHROOMS AND ARE POISONED

(Special to Dispatch)

Nisswa, Minn., Aug. 27.—H. P. Wickham and wife, of Minneapolis, at their summer cottage on Cullen lake, partook of mushrooms and were poisoned, necessitating hospital treatment in Brainerd. Mrs. Wickham recovered shortly, but Mr. Wickham had doctors in attendance all night.

Mr. Wickham is a member of the printing firm of Cole & Wickham, 305 South 5th St. Minneapolis and an old newspaper man formerly on the Minneapolis Tribune.

Mrs. Wickham is an expert in selecting the edible varieties of mushrooms, knowing some 150 varieties. He and his wife picked them in the evening and three hours later she was taken ill and vomited, the latter bringing some relief. Four hours later he was taken very sick and then both were removed to the hospital.

The action of inedible mushrooms is peculiar, acting like a drug. It runs a regular course and at one stage leaves the patient in a hilarious state with nerves wrecked.

## BUREAU ENDORSES PYROTOL SALES

Attention is called by the Minnesota Farm Bureau Federation to the distribution by the United States Department of Agriculture of a war salvaged explosive, "pyrotol," to be used for agricultural purposes, such as the clearing of farm lands.

The distribution of this product in Minnesota is being handled by the department of agriculture of the University of Minnesota. Farmers should send their orders for pyrotol to the county agricultural agent, if there is one. Orders from counties in which there are no agents may be sent direct to the division of agricultural engineering, University Farm, St. Paul.

For the convenience of those farmers living in districts where it is impossible to get enough orders to make a carload, the University is maintaining distributing points at St. Paul, Bemidji and Virginia. Pyrotol will be shipped direct to any farmer in Minnesota from the nearest of these points. Special prices are quoted on carload quantities.

Farmers desiring to have a quantity of pyrotol are urged to get their orders in early, as the demand is sure to be large and late orders will be considerably delayed.

## AFTER DELINQUENTS, HUNTING LICENSES

County Auditor C. W. Mahlum Receives Letter From State Game and Fish Commission

### REPORTS ORDERED MADE

County Auditor Given List of Those Failing to Make Out Necessary Game Report

County Auditor C. W. Mahlum has just received a letter from the Minnesota State Game and Fish Commission, relative to the reports required by law from those who secured hunting licenses last season. The letter is as follows:

"On or about September 1st, we will mail you from this office a list of residents of your county who have failed to report on their 1923 hunting licenses.

"We shall close our books on September 1st, and no reports will be credited after that date."

The law requires that all who secured hunting licenses last year make a report to the commission before September 1st. If the report is not received by the commission before this date, the person failing to report will not be granted a license this season.

The county auditor is given the list of delinquents, and should any applicant for a license this year be unfortunate enough to find his name on the list, he will have to go without hunting this season.

Since the first of September is next Monday, all delinquents should get in their report at once, if they expect to secure a license this year.

## DISPATCH EDITOR GETS BOUQUET OF PRETTY FLOWERS

Mrs. J. H. Herbert, chairman of the garden committee of the Northeast Brainerd Improvement League, and one of its leading workers, presented the Dispatch with a beautiful bouquet of flowers which had won a prize at the exhibit of the League yesterday.

It now graces the desk of the editor-in-chief, who is zealously guarding it and enjoying its delightful perfume.

## State Auto Tax Low In New Comparisons

The recent statement that Crow Wing county and other Minnesota automobile owners are paying less taxes on their cars than those of the average state is based on figures collected by the St. Paul Association of Public Affairs, according to Nickles N. Dimes, the gas tax man.

St. Paul business men wanted the facts and their organization got them, from 31 out of the 48 states on inquiries addressed to like associations in the most important cities. Exact personal property, state registration or license and other taxes levied on autos in the different states were obtained on touring cars of seven common makes. Where a gas tax was collected it was estimated on the resulting comparison on the several automobiles:

Ford—Minnesota \$12; average \$20.14.  
Dodge—Minnesota \$24.20; average \$32.70.  
Buick—Minnesota \$35.61; average \$42.90.  
Case—Minnesota \$49.23; average \$58.13.  
Packard—Minnesota \$68.34; average \$72.22.  
Cadillac—Minnesota \$82.09; average \$87.51.  
Pierce Arrow—Minnesota \$144.38; average \$129.11.

The gas tax man pointed out that in spite of the belief that lower priced cars are taxed highest in Minnesota, only in the single instance of the most expensive car listed is the Minnesota tax above the general average.

"And the big outstanding fact is that even if a 2 cent gas tax was added, the Minnesota car owners would still be paying considerably less taxes on their cars than those of the average state," said Nickles N. Dimes.

## HARVEST HOME PICNIC AT CENTER

To be Held on Labor Day, Monday, Sept. 1 at the Thomas Russell Home

### FOUR MILES FROM MERRIFIELD

Community Picnic Combines With a Thriving Community Fair

The annual Harvest Home picnic of Center township, will be held on Labor Day, Monday, September 1st, at the Thomas Russell home, four miles north of Merrifield on Silver lake.

The community picnic combines with it a community fair, and has become one of the important institutions of Center township. The exhibits and the interest taken in the event would do justice to a much larger fair, and draws attendance from quite a territory.

Special attention is given to the boys and girls of the township, and their exhibits will occupy a prominent place at the picnic. Prizes will be awarded to the boys on the produce which they have raised themselves. The girls will be awarded prizes for their baking, canning and sewing.

The grown-ups of the township will prepare large exhibits, to show what can be done in agricultural lines in the township, but these exhibits will not be competitive and no premiums will be awarded for them.

In addition to the picnic and exhibits, there will be an excellent program. Several prominent speakers will address the gathering and the Brainerd Boys Band will furnish the music of the day.

There will also be a good sports program, with prizes aggregating \$15. This program is as follows:

Girls race, one to four years—15c, 10c, 5c.

Girls race, four to eight years—25c, 15c, 10c.

Girls race, eight to twelve years—35c, 25c, 15c.

Girls race, twelve to sixteen years—40c, 20c.

Free-for-all girls race—50c, 25c.

Free-for-all boys race—50c, 25c.

Boys race, one to four years—15c, 10c, 5c.

Boys race, four to eight years—25c, 15c, 10c.

Boys race, eight to twelve years—35c, 25c, 15c.

Sack race for boys and girls—50c, 25c.

Battle royal—\$1.

Pillow fight, best out of six—\$1.

Relay horseback race, boys and girls—\$1.

Tug of war, Center against the World.

Center township is justly proud of its Harvest Home picnic and fair, and invites everyone to participate in their celebration. The festivities will start early, and end late. Those attending are to bring well filled lunch baskets and come prepared to make a big day of the picnic.

## BIRTHDAY ANNIVERSARY

W. H. Nelson Surprised on Monday Evening by Visit of 35 Friends

W. H. Nelson was pleasantly surprised on Monday evening, the occasion being his birthday anniversary, when thirty-five of his friends walked in upon him.

The evening was enjoyably spent with cards and music. Mr. Nelson was presented with a gold watch chain.

Out-of-town guests included Mrs. Harry Vannier, of Shrag, Wash., Miss Anna Nelson, of Seattle, and Mr. and Mrs. Johnson, of St. Paul.

## Block, Tackle Move Body of 600-lb Woman

Waterbury, Conn., Aug. 27.—In a coffin made to order, the largest ever used in New England, Mrs. Catherine Bristol, 49, who weighed more than 600 pounds, was buried in Riverside cemetery. In carrying it 100 feet from hearse to grave, the 10 bearers had to stop twice for rest.

A block and fall was necessary to lower the coffin from the third floor home of Mrs. Bristol in Ansonia. The coffin alone weighed 430 pounds. It was six feet long, 34 inches in width, and 25 inches deep.

Mrs. Bristol's death was attributed to her excessive weight.

## FAVOR A SALES DAY IN BRAINERD

Brainerd Business Men's Association Goes on Record at Dinner in Chamber of Commerce Rooms

### PRIZES TO BE ELIMINATED

Merchants and Clerks Picnic Day Abolished, Stores Open to 9 P. M. 3 Days Before Christmas

Much business was transacted at the dinner of the Brainerd Business Men's association given at the Chamber of Commerce rooms on Tuesday evening. Al Beaver was caterer and association members aided in serving. The menu included generous portions of boiled ham, mashed potatoes, cabbage salad, pickled beets, buttered Parker house rolls, raspberry jello with whipped cream, coffee, cigars.

O. A. Peterson was chairman of the dinner committee, and his aids were Wm. V. Turcotte, Ed. Gruenhagen and Ralph Sheels. The attendance included practically all the business and many of the professional men of Brainerd and three business women, Mrs. Kracher, Mrs. McMahon and Mrs. Rose Parker. The latter paid Mr. Peterson, and assistants compliments on serving such a fine dinner.

### Sales Day of Merchants

By vote taken a Sales Day in Brainerd was favored. O. A. Peterson, chairman of a special committee, made a comprehensive report on the matter. By vote taken, the matter of offering prizes was not favored. The experience of Montevideo was mentioned and of other towns which made a success of a monthly sales day devoted to straight merchandising.

The matter of Sales Day details was left to a committee to work out in the best possible way.

### Christmas Holiday Hours

By vote taken it was decided to remain open three nights before Christmas until 9 o'clock. The days will be December 20, 22 and 23. On December 24, Christmas eve, stores will close at 6 P. M. The vote stood 17 aye, 10 nay.

### Annual Picnic Day

The annual picnic day of merchants and clerks brought out a deal of discussion. Coming in the midst of the busiest tourist season, some stated it resulted in actual trade loss. One merchant said he lost a customer from the lakes, spending close to \$100 a month, who in spite of newspaper notices and cards tacked up in the store, failed to pay any attention to picnic programs.

It was brought out that it was practically impossible to notify tourists about the picnic and that such business would seek other channels in a rush season. On motion carried, picnic day was abolished.

### Armistice Day

It was decided to close two hours during services on Armistice Day. Other matters discussed were the grain handling situation in Brainerd, lumber business, etc.

An amendment was adopted relating to voting privileges in the association.

Secretary A. L. Hoffman told of the good accomplished in exercising supervision over outsiders aiming to put on collection of donations, campaigns, advertising and selling propositions.

Mayor Con O'Brien, who presided at the meeting, referred to the enactment by the council of the peddlers' licensing ordinance.

Another discussion centered about small stores of the city not affiliated with the Business Men's organization which were keeping open all hours, nights, holidays, Sundays. It was brought out that there is a state

### DANGERS OF A COLD

**Brainerd People Will Do Well to Heed Them**

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Pills at the first sign of kidney trouble. Follow this Brainerd resident's example:

Hans Anderson, 502 Norwood St., says: "I caught a cold while at work and my back started aching. When I stooped to shovel some coal, I got such a sharp catch in my back I thought I had been hit. From then on I had a steady ache in my back and I felt sore and stiff in the morning. My kidneys acted unnaturally and between all these symptoms I was feeling pretty badly. I tried easily and was usually all in before the day was over. I got a supply of Doan's Pills at Dunn's Drug Store and after using them a short time I was rid of the pains and kidney disorder."

## DID MLE. SUZANNE'S COURAGE FAIL?

By HENRY L. FARRELL  
(United Press Sports Editor)

Editor's Note: Since Miss Helen Wills, the 18-year-old University of California sophomore, showed such brilliant form in winning the Olympic tennis championship at Paris and in winning the American national championship at Forest Hills for the second time, the Lenglen-Wills supremacy controversy has been revived. The failure of the French girl to play through at Wimbledon and to enter the Paris Olympic tournament has also brought up the question: "Why didn't she play?" In a series of six articles, starting today, Henry L. Farrell, sports editor of the United Press, who returned recently from the Wimbledon tournament and the Olympic games, will discuss both issues and will give many details that have not been printed before.

## ARTICLE ONE

New York, Aug. 27.—One of the most unusual and least expected happenings of the mad rush of big summer sporting events this season was the default of Mlle. Suzanne Lenglen in the middle of the Wimbledon tournament and the withdrawal of her entry before the Olympic tennis championship in Paris.

Her default at Wimbledon took away from her what she had claimed was a recognized world's championship, although she can fall back upon the claim that she was not beaten and that she will be the champion as long as she is not beaten by any rivals who aspire to the title.

When she decided to quit Wimbledon, after Miss Elizabeth Ryan, the former California woman, had given her the fight of her life, her wisdom was not questioned and her motives caused no suspicion. It was accepted in London tennis circles that the French girl did not feel quite up to her game and that she wanted to save herself for the Olympic matches. The loss by default of her Wimbledon championship was considered a very serious step, but the opportunity of winning the Olympic championship had its good points. The same stars that played at Wimbledon were entered in the Olympic matches and there were additional entries from other nations that gave the Olympic officials good reasons for advancing the matches as being for the world's championship.

Then, also, Mlle. Lenglen by priming herself for the Paris games could have claimed the world's championship and she could have won one first place and probably three for France in the singles, doubles and mixed doubles.

There must have been good reasons for her refusal to take advantage of the fine opportunity for further glory that were offered in the Olympic matches. By elimination it might be advanced that she was physically unfit, as she claimed, or that she is through as a champion player. It is all up to the individual to form an opinion.

SAUK CENTER  
LAD COMER  
ON THE LINKS

Defeating his four opponents in the elimination rounds of the Minnesota State Junior golf meet at the Minikahda club last week Walter Moynihan, youthful Sauk Center golfer, won his way into the final play Saturday morning against the Midland Hills star, Lester Bolstad, who had also taken care of his four opponents with dispatch. Moynihan disposed of Swanson, medalist in the qualifying round, in the semi-finals while Bolstad eliminated McCormick, the Golden Valley entrant. Moynihan forced Bolstad in the championship match to the fifteenth green which was the longest contest in which Bolstad had engaged during the week's play. Bolstad won on this green to make the score 4 and 3.

Medals and cups were awarded the finalists in each flight after the last match Saturday.

## Some Record

Moynihan, who has been making quite a name for himself throughout this section, is only 17 years old and is about 5 feet 7 inches tall, weighing only 135 pounds. His other achievements this year include runner-up in the medal play at the C. M. G. A. meet at St. Cloud when he was topped only by Tallman in the qualifying round. Playing at the annual Tourist golf meet at Alexandria he was finalists in the first flight with Bud Irwin of St. Louis who defeated him after a close match. Moynihan also holds the course record of the Sauk Center links at 36 with 38 par. —St. Cloud Daily Journal-Press.

WHERE DID ED  
SPEND HIS TWO  
WEEKS' VACATION?

Here's how Ed L. Shave, sports editor of the St. Paul Daily News, spent his vacation:

Well, after two weeks of vacation spent in doing an apprentice act as a concrete mixer and hod carrier it really seems nice to be seated back in the big cushioned chair this morning and planning how John W. Norton will erect another flagpole to hoist upon it his 1924 American Association gonfalon.

Some folks spend vacations going on long trips and return all fagged out, others forsake their flats where every modern appliance makes life a round of convenience and go mooching around in an auto with a tent or take a canoe trip toiling under the blistering sun all day and fighting mosquitoes and other insects all night.

But take it from me, try shoveling sand, gravel and cement, driving a truck and shoveling clay and the ol' slumber bed looms invitingly at seven o'clock at night.

## Patient Old Bird

The green heron, which is sometimes called the fly-up-the-creek, is about one and one-half feet long and is common throughout the United States and Canada. It feeds mostly on fish, frogs and other aquatic animals and may be seen, particularly in the morning and in the evening, standing patiently motionless in some shallow water, waiting till prey comes within reach.

Tom Gibbons and Manager Back From England  
After Unprofitable Knockout of Bloomfield

Gibbons who won a technical knockout decision in the third round of his London bout with the English heavyweight Bloomfield, was glad to get home. He had received only one-third of what had

been promised him by the English promoter, he declares, so that financially he sustained a knockout. The photograph shows Gibbons and Eddleman, his manager, as they arrived in New York.

son for Walter and his 107th of his famous career.

It was the eighth straight win for the Washington crew and the club is now practically tied for first place with the New York Yankees. Washington has won 70 games and lost 52, while New York has won 69 and lost 51.

Today the Senators and St. Louis meet in a doubleheader. The Yankees yesterday defeated Cleveland by 8 to 3. The Yanks made 13 hits for 24 bases including Babe Ruth's home run, it being his 40th for the season.

## DID Mlle. SUZANNE'S COURAGE FAIL?

By HENRY L. FARRELL  
(United Press Sports Editor)

Editor's Note: Since Miss Helen Wills, the 18-year-old University of California sophomore, showed such brilliant form in winning the Olympic tennis championship at Paris and in winning the American national championship at Forest Hills for the second time, the Lenglen-Wills supremacy controversy has been revived. The failure of the French girl to play through at Wimbledon and to enter the Paris Olympic tournament has also brought up the question: "Why didn't she play?" In a series of six articles, starting today, Henry L. Farrell, sports editor of the United Press, who returned recently from the Wimbledon tournament and the Olympic games, will discuss both issues and will give many details that have not been printed before.

## ARTICLE ONE

New York, Aug. 27.—One of the most unusual and least expected happenings of the mad rush of big summer sporting events this season was the default of Mlle. Suzanne Lenglen in the middle of the Wimbledon tournament and the withdrawal of her entry before the Olympic tennis championship in Paris.

Her default at Wimbledon took away from her what she had claimed was a recognized world's championship, although she can fall back upon the claim that she was not beaten and that she will be the champion as long as she is not beaten by any rivals who aspire to the title.

When she decided to quit Wimbledon, after Miss Elizabeth Ryan, the former California woman, had given her the fight of her life, her wisdom was not questioned and her motives caused no suspicion. It was accepted in London tennis circles that the French girl did not feel quite up to her game and that she wanted to save herself for the Olympic matches. The loss by default of her Wimbledon championship was considered a very serious step, but the opportunity of winning the Olympic championship had its good points. The same stars that played at Wimbledon were entered in the Olympic matches and there were additional entries from other nations that gave the Olympic officials good reasons for advancing the matches as being for the world's championship.

Then, also, Mlle. Lenglen by priming herself for the Paris games could have claimed the world's championship and she could have won one first place and probably three for France in the singles, doubles and mixed doubles.

There must have been good reasons for her refusal to take advantage of the fine opportunity for further glory that were offered in the Olympic matches. By elimination it might be advanced that she was physically unfit, as she claimed, or that she is through as a champion player. It is all up to the individual to form an opinion.

SAUK CENTER  
LAD COMER  
ON THE LINKS

Defeating his four opponents in the elimination rounds of the Minnesota State Junior golf meet at the Minikahda club last week Walter Moynihan, youthful Sauk Center golfer, won his way into the final play Saturday morning against the Midland Hills star, Lester Bolstad, who had also taken care of his four opponents with dispatch. Moynihan disposed of Swanson, medalist in the qualifying round, in the semi-finals while Bolstad eliminated McCormick, the Golden Valley entrant. Moynihan forced Bolstad in the championship match to the fifteenth green which was the longest contest in which Bolstad had engaged during the week's play. Bolstad won on this green to make the score 4 and 3.

Medals and cups were awarded the finalists in each flight after the last match Saturday.

## Some Record

Moynihan, who has been making quite a name for himself throughout this section, is only 17 years old and is about 5 feet 7 inches tall, weighing only 135 pounds. His other achievements this year include runner-up in the medal play at the C. M. G. A. meet at St. Cloud when he was topped only by Tallman in the qualifying round. Playing at the annual Tourist golf meet at Alexandria he was finalist in the first flight with Bud Irwin of St. Louis who defeated him after a close match. Moynihan also holds the course record of the Sauk Center links at 36 with 38 par. —St. Cloud Daily Journal-Press.

WHERE DID ED  
SPEND HIS TWO  
WEEKS' VACATION?

Here's how Ed L. Shave, sports editor of the St. Paul Daily News, spent his vacation:

Well, after two weeks of vacation spent in doing an apprentice act as a concrete mixer and hod carrier it really seems nice to be seated back in the big cushioned chair this morning and planning how John W. Norton will erect another flagpole to hoist upon it his 1924 American Association gonfalon.

Some folks spend vacations going on long trips and return all fagged out, others forsake their flats where every modern appliance makes life a round of convenience and go mooching around in an auto with a tent or take a canoe trip toiling under the blistering sun all day and fighting mosquitoes and other insects all night.

But take it from me, try shoveling sand, gravel and cement, driving a truck and shoveling clay and the old slumber bed looms invitingly at seven o'clock at night.

## Patient Old Bird

The green heron, which is sometimes called the fly-up-the-creek, is about one and one-half feet long and is common throughout the United States and Canada. It feeds mostly on fish, frogs and other aquatic animals and may be seen, particularly in the morning and in the evening, standing patiently motionless in some shallow water, waiting till prey comes within reach.

COMES TO NEW YORK  
WITH REPUTATION AS  
SENSATIONAL BATTER

"Shaggy" Horan, the new Yankee outfielder from the Reading team of the International League, is expected to be the right-handed pinch hitter Miller Huggins, manager of the New York team has been seeking for some time. He is reported to be a heavy hitting and colorful ballplayer.

Olympic Mermaids Are  
Suspended by Swim Body

Philadelphia, Aug. 27.—Seven American women swimmers, including five aquatic stars who participated in the recent Olympics, were suspended by the Middle Atlantic association of the A. A. U. for participating in an exhibition meet at Ocean City, N. J., last Friday, it was announced at the A. A. U. office.

Minnesota, North Dakota  
Golfers to Play at Grafton

Grafton, N. D., Aug. 27.—Officers of five counties have been invited by the Grafton Country club to a tournament to be played on the Grafton links on August 30, 31 and September 1. Players of Walsh, Pembina and Cavalier counties in North Dakota, and Kittson and Norman counties, in Minnesota, are eligible to enter.

## Making Money Fast

"Well," said the lawyer, "have you decided to take my advice and pay this bill of mine?" "Y-e-s," stammered the client. "Very well," said the lawyer. Then he turned to his clerk and ordered him to add "5¢ to Mr. Smith's bill," for further advice.—London Tit-Bits.

## Republic Founded by Monk

The republic of San Marino, the second smallest independent state in Europe, is said to have been founded by Marinus, a Dalmatian monk, some time in the Fourth century. San Marino has never lost its independence.

WALT JOHNSON  
PITCHES NO-HIT  
GAME, FANS AGOG

Washington, Aug. 27.—This city is teeming wild with the pennant buzzing bee.

All talk here today is Walter Johnson and the gonfalon. Yesterday the great Walter turned in a no-hit, no-run game of seven innings against the St. Louis Browns, the Senators winning by 2 to 0.

Johnson's feat came in the first game of a scheduled doubleheader, the game being called at the seventh on account of rain, and the second battle was not played.

It was the sixth shutout of this sea-

son for Walter and his 107th of his famous career.

It was the eighth straight win for the Washington crew and the club is now practically tied for first place with the New York Yankees. Washington has won 70 games and lost 52, while New York has won 69 and lost 51.

Today the Senators and St. Louis meet in a doubleheader. The Yankees yesterday defeated Cleveland by 8 to 3. The Yanks made 13 hits for 24 bases including Babe Ruth's home run, it being his 40th for the season.

TIED FOR HIGH  
GUN AT PINE  
RIVER SHOOT

Bert Orne of the Brainerd Gun club represented the club at the shoot held at the county fair at Pine River. There were 16 entries and Orne tied for high man with a score of 45 out of 50.

The Pine River gun club was recently organized by Organizer Corbett of South Dakota and interest in the sport is keen at Pine River and vicinity.

Louis Pahl, Grid Star,
